Që nga viti 1982 AZ Pneumatica projektton, ndërton dhe prodhon valvola dhe paisje pneumatike. Duke përdorur teknologjitë më të mira dhe në bazë të një projektimi shumë të kujdesshëm, e ka zhvilluar një gamë prodhimesh standart, mbi të cilat bazohet prezantimi në tregun italian dhe atë botëror, i karakterizuar nga një rrjet komercial gjithmonë në rritje, tashmë edhe në Shqipëri dhe Kosovë.

Ndërmarrja disponon tetë qendra pune dhe pesë torno me kontroll numerik, krejtësisht të automatizuar që garantojnë volume të mëdha prodhimi, shpejtësie, precizion dhe teknologji të lartë. Besueshmëria është e garantuar nga kontrollet që nga faza e prodhimit deri në kolaudimin final, që bëhet mbi të gjithë prodhimin pa përjashtim.

Gjatë vitit 2005, është inauguruar fabrika e re, me një sipërfaqe të mbuluar mbi 6000 m².
